

440.1' | COMBINATION WRENCH

Description:

- Standards: ASME B107.100, SAE AS954G
- Standard spanner for all current applications,
- High mechanical performance combined with reduced dimensions to meet aeronautical standards,
- Mesh head:
- Mesh offset (dimension E) for improved access to bolts placed in series or built-up,
- 12 point ring end with OGV® profile for tightening with nut protection,
- Eyelet head inclined at 15°,
- Parallel spanner head:
- 15° offset,
- Optimised wrench-handle geometry for improved accessibility,
- Finish: satin chrome.
