

DM.TU | Hose Removal Pliers

Description:

- Essential Tool For Hose Removal
- Safely disconnect all kinds of hard to remove pipes and hoses
- These pliers push the pipe out of the hose minimising the risk of crack and leaks when pulling on the pipe to disconnect it
- Perfect for old corroded fittings
- Adaptable:
- Jaws designed for 3/16", 1/4" and 3/8" tubes and lines
- Especially suitable for hoses connected to tubes or lines with smooth surfaces, where exercising a pulling force is not possible
- Pointed Jaw Tip are designed to get into the tightest spaces
- Directional:
- Horizontal movement adjusts and locks to the hose diameter
- Vertical removes the hose
