

## V.347F Angle die grinder - 6 mm collet

### Description:

- High speed 18000 RPM motor for efficient working.
- 90° angle head allows flexibility in tight areas.
- Built in air regulator which can be adjusted with a screwdriver.
- Compact angled head for difficult-to-reach places.
- 6 mm collet for easy placing of grinding wheels, stones and other attachments.
- Feather teasing trigger for optimum control.
- Rear exhaust hose blows air away from the workplace, and reduces the sound level.
- Supplied with 6 mm pliers + 2 open end wrenches.
- Free speed 18000 tr/min.
- Power 0,3 cv.
- Collet capacity 6 mm.
- Working pressure 6,2 bar.
- Average air consumption 110 l/min.
- Air inlet 1/4".
- Minimum hose diameter 10 mm - 3/8".
- Vibration <math><2,50\text{ m/s}^2/a.</math>
- Vibration 1,50 m/s<sup>2</sup>/K.
- Sound pressure 77,26 dB(A).
- Sound power 88,25 dB(A).
